Part 1

4. (gdp) break 6

4. (gdp) run and (gdp) c

6.

	1st int	2nd int	3rd int	4th int
num	112	11	1	0
rev_num	5	52	521	5211

8. The function foo reverses the int num, 1125.

Part 2

Line 6: The variable space has not been initialized. Declare and initialize the variable space to correct the program.

Line 12: Missing single inverted commas around \n. Add single inverted commas around '\n'.

Line 26: Type mismatch. (warning) Cast the type in the printf statement.
